

## **395 Express Lanes Construction Update – January 2018**

Construction activities are underway in the I-395 corridor between Edsall Road in Fairfax County to Eads Street in Arlington County. The following activities are what the surrounding communities can expect in the upcoming weeks:

- Demolition of the guardrail, barrier and median along the eastern shoulder of the I-395 HOV lanes from near Edsall Road to Eads Street that will allow crews to start construction on an additional travel lane in the HOV lanes
- Establishing temporary traffic controls to form a construction area for the installation of sound walls near Seminary Road
- Beginning clearing and drainage work for construction of sound walls near Seminary Road. Clearing of trees and shrubs is necessary to install the wall and to allow crews the opportunity to access the wall for maintenance in the future

Drivers are advised to travel safely and pay attention to on-road signage if traveling in this area during the closure. Visit <http://www.395ExpressLanes.com> to view additional lane closure information and to sign up for e-newsletters and traffic alerts.
