

Afternoon Departure from Pentagon South Parking Area toward I-395 South HOV via VA 27

The following map displays the typical exit pattern (**blue**) from North Rotary Road (Kiss & Ride/Temporary Slug Pickup for 610 Stafford/Mine Rd) to the I-395 HOV On-Ramp on Eads Street. Delays typically increase during PM rush hour (3 PM – 6PM). Construction along Eads Street and other unplanned events (accidents or special events in DC) will cause additional delays. The path to an alternate I-395 South HOV On-Ramp on VA-27 (**red**) is shown below as another option to leave the Pentagon South Parking area.

Route Option	Description
Typical Route (Blue)	Exit from North Rotary Road (Kiss & Ride/Temp Slug Stations), turn left to proceed to S. Rotary and take ramp to I-395 South HOV via Eads Street
Alternate Route (Red)	Exit from North Rotary Road (Kiss & Ride/Temp Slug Stations). Turn right onto VA-27. Take exit to 110/North Parking. Take the next two left turns. Follow the road towards the bridge to VA-27 South. I-395 South HOV On-Ramp will be on your left.
